I Claim:

- 1. A pedicure spa chair base suitable for use with any suitable seat, which chair base has a basin defined by upstanding sidewalls, said basin having a lowered zone and a raised zone, the latter comprising a pair of mirror image footrests separated by a part of the lowered zone, which part has the drain for the basin therein, and said basin's lower zone also having a horizontally disposed water jet disposed forwardly of each footrest.
- 2. The pedicure chair base of claim 1 wherein each footrest has a raised tread thereon to reduce slippage.
 - 3. The pedicure chair base of claim 1 wherein each footrest is generally triangular.
- 4. The pedicure chair base of claim 1 further including a forward projecting extension on each footrest, each of which extension is spaced from said sidewalls, with the respective horizontally disposed water jet disposed between the sidewall and the respective extension.
- 5. The pedicure chair base of claim 4 wherein each footrest has a raised tread thereon to reduce slippage.
- 6. The pedicure chair of claim 5 further including a pair of spaced water jets mounted on a sidewall of said basin.
- 7. A pedicure spa chair base suitable for use with any suitable seat, which chair base has a basin defined by upstanding sidewalls, said basin having a lowered zone and a raised zone, the latter comprising a pair of mirror image raised tread bearing footrests, each footrest having a forward projecting extension, said footrests and said extensions being separated by a part of the lowered zone, each of which extension is spaced from a sidewall of said basin;

said basin's lower zone also having a horizontally disposed water jet disposed both forwardly of each footrest, and between a sidewall and an extension.

- 8. The pedicure spa chair base of claim 7 wherein a drain for the basin is disposed in the lowered zone between said footrests.
- 9. The pedicure spa chair base of claim 8 further including a chair mount that permits a seat mounted thereon to rotate from side to side.
- 10. The pedicure chair of claim 8, further including a pair of spaced vertically disposed water jets mounted on a basin sidewall.
- 11. The pedicure spa chair base of claim 3 further including a chair mount that permits a seat mounted thereon to rotate from side to side.
 - 12. The pedicure spa chair base of claim 7 wherein the basin is configured round.
 - 13. The pedicure spa chair base of claim 7 wherein the basin is configured square.
 - 14. The pedicure spa chair base of claim 11 having a seat attached to said seat mount.

15. A pedicure chair comprising a seat attached to a chair base which base has a circular basin defined by an upstanding sidewall, said basin having a lowered zone and a raised zone, the latter comprising a pair of mirror image raised tread bearing footrests, each footrest having a forward projecting extension, said footrests and said extensions being separated by a part of the lowered zone, each of which extensions is spaced from the sidewall of said basin;

said basin's lower zone also having a horizontally disposed water jet disposed both forwardly of each footrest and between the sidewall, and an extension and having a pair of spaced vertically disposed water jets mounted on the basin sidewall.

- 16. The chair base of claim 1 further including a front bumper, and a water faucet.
- 17. The chair base of claim 15 further including a raisable front bumper, and a water faucet.
